Availability	ENG: http://www.ituc-csi.org/supply-chains-resources-hub

Name of Resource	Inside the global supply chains of 50 top companies
Type	Report / analysis
Country / jurisdiction	Global
Organization	International Trade Union Confederation
Initiative launch date	2016

Descriptive	The report analyses a business model with a global footprint that covers almost every country in the world and profiles 25 companies with headquarters in Asia, Europe, and the United States. The report includes five recommendations for companies to address the issues of global supply chains: Supply chain– know whom you contract from and publish this; Safe work – inspect sites, fix hazards and recognise workers' right to safety committees; Secure work – end short- term contracts; Minimum living wages – pay wages on which people can live with dignity; Collective bargaining – for wage share and decent wages and working conditions.

**Business & Human Rights
Resource Centre**

Name of Resource	Modern Slavery in Company Operation and Supply Chains: Mandatory transparency, mandatory due diligence and public procurement due diligence
Type	Report/analysis
Country / jurisdiction	Global
Organization	International Trade Union Confederation, Business & Human Rights Resource Centre
Initiative launch date	September 2017
Description	<p>The paper sets out what leading governments are already doing to insist global businesses does more to eradicate modern slavery. It draws from this experience to set out how these uncoordinated actions could become a robust and harmonised international standard for national legislations.</p> <p>The report reviews existing or emerging legislation that addresses modern slavery in companies' operations and supply chains. It focuses on three related areas of legislation: mandatory transparency, mandatory due diligence and public procurement.</p>
