Name of Resource	Corporate approaches to tackling modern slavery
Type	Report/analysis
Country / jurisdiction	United Kingdom

Date of publishing	16 October 2015
Description	<p>The Ethical Trading Initiative (ETI) and Ashridge Centre for Business and Sustainability at Hult International Business School partnered to lead the research into company perspectives and responses to the risks of modern slavery in their global supply chains — against a backdrop of increasing global human rights legislation and reporting requirements.</p> <p>The report reflects an overview of current practice in the companies who volunteered to participate in a survey. It is not a guide for good practice, nor an assessment of companies' readiness or capacity to meet the requirements of new legislation. Instead, it draws on valuable insights from a group of companies that are likely to be further along in their thinking and practice than others.</p>
