

Guide to buying responsibly

Name of Resource	Guide to buying responsibly
Type	Guidance on policy / legislation implementation
Country / jurisdiction	Global
Organization	Ethical Trading Initiative
Date of publishing	7 September 2017
Description	This Guidance focuses on companies and their purchasing practices, drawing on the findings of a collaborative supplier survey run in partnership between the joint ethical trading initiatives and the International Labour Organization, with support from SEDEX. The guide includes best practice examples and outlines the five key business practices that influence wages and working conditions.
