Supply Chain Risk Report - Child and forced labour in Canadian consumer products

Name of Resource	Supply Chain Risk Report - Child and forced labour in Canadian consumer products
Type	Report/analysis
Country / jurisdiction	Canada
Organization	World Vision Canada
Date of publishing	2016
Description	The report looks at Canada's connection to the issues of human trafficking, forced and child labour, by cross-referencing recent data on Canadian imports with the U.S. Department of Labor's List of Goods Produced by Child Labor or Forced Labor. It tracks the supply chains of large Canadian companies and industries to identify potential links to the "risky products" that may be reaching stores in Canada. As part of the research, authors tried to answer several fundamental questions: What are Canadian companies doing to reduce the chances that children are labouring in fields, factories, and fishing boats to produce their goods? How do companies know their efforts to prevent child and forced labour are working? What happens when they uncover problems in their supply chains? How are they sharing this information with consumers and investors?
