D es cri pti on	The publication, Business Actions Against Forced Labour, is a practical demonstration of the collaborative spirit between businesses, government, civil society and workers' organizations, showcasing concrete actions that are being taken to address and prevent forced labour in global supply chains. These actions include corporate efforts to implement Consumer Goods Forum's Priority Industry Principles, a set of principles that, when applied on a global scale, can help address the conditions that contribute to forced labour: every worker should have freedom of movement, no worker should pay for a job and nor worker should be indebted or coerced to work.
