Five main points are addressed by the Action Plan: 1. Active role of the government 2. Policy coherence 3. Clarifying due diligence 4. Transparency and reporting 5. Scope for remedy.</p> <p>The current NAP was published in 2014 and therefore needs an update. The Dutch government starts a revision of the NAP at the end of 2019. The first step of the revision is a gap analysis. The revision will also include multi-stakeholder consultations.</p>
