Description	The Department of Labor's Comply Chain app targets companies and industry groups seeking to develop robust social compliance systems for their global production. Comply Chain provides practical, step-by-step guidance on eight critical elements of social compliance, and is designed for companies that do not have a social compliance system in place or those needing to strengthen their existing systems. An integrated social compliance system includes: engaging stakeholders and partners, assessing risks and impacts, developing a code of conduct, communicating and training across the supply chain, monitoring compliance, remediating violations, independent review and reporting performance. The app contains many examples of specific good practices that companies, industry groups, and multi-stakeholder initiatives have put in place in these eight areas.
