

Serbia

Name of Resource	Public Procurement Development Programme 2019 – 2023	
Type	Legislation implementation	
Country / jurisdiction	Serbia	
Enacting authority	Government of Serbia	
Entry into force / date of approval	23 September 2019	
Description	This programme creates more efficient implementation of public procurement procedures, reduction of costs and administrative procedures, protection of small and medium-sized enterprises from the negative consequences of centralization of public procurement. It also includes a more efficient protection of rights during the procedure. There is a focus on combating corruption, increasing transparency and ensuring that business entities, the public, the media and other stakeholders are cognisant about contract aware opportunities and about purchasers who have been awarded contracts.
