Name of Resource	Report IV - Decent work in global supply chains. International Labour Conference, 105th Session, 2016
Type	Report / analysis
Country / jurisdiction	Global
Organization	International Labour Organization
Initiative launch date	2016
Description	The report offers an important opportunity for the International Labour Organization constituents to gain a better understanding of how engagement in global supply chains can contribute to sustainable development, inclusive economic growth and decent work for all. Many studies have explored the economic and trade dimensions of global supply chains; however, less attention has been paid to the implications for employment, working conditions and labour rights, including freedom of association and collective bargaining. The report therefore has an original contribution to participate in the global debate.
